

Filmtec Corporation

subsidiary of Dow Chemical

Keewaydin has provided ongoing real estate services to this successful, growing manufacturing company that develops reverse osmosis and nano filtration membranes with facilities in Minneapolis, as well as others nationally and internationally.

In addition to lease negotiation services, Keewaydin provided real estate advisory services for evaluation of public financial incentives and site selection strategies for potential future expansions both short and long term. Keewaydin recently finalized negotiations for the purchase of a 257,000 square feet manufacturing facility in Edina and negotiated lease extensions for an additional 100,000 square feet.

Keewaydin Services

- Strategic Real Estate Planning
